

Blind contour drawing

Category: drawing	Group size: 10-20
Age range: 5-15	Duration: 1-2 hours
Language level: basic	Materials: pencils, crayons, paper
	Activity link:

Introduction

Blind contour drawing is done by not looking at the paper while you are drawing. The drawings may look quite strange but this is part of the project. If the basic activity is completed quickly, people may like to do a set of contour drawings, for example, focus on the body – head, hand foot etc.
